

# Emax Tech Bulletin 4

Date Issued: 6/29/2004

Product Effected: E-Max Console Computer

Version(s) Effected: 1.0.0, 1.0.1, 1.1.0, 1.1.0x, 1.2.0, 1.2.1

Problem: When viewing a Payout Report under Utilities from a previously played schedule it appears that the report is missing game and total information.

Cause: Games/Activities that are sequentially ordered and named the same will be grouped under one heading. The Game and Part Totals will be for that last Game/Activity in the sequence.

Solution: This problem can be solved by changing all of the sequenced Games/Activities to have unique names. This feature will be supported in the next release.
